2.  Picked up from the Defense Appropriations Subcommittee, House ~~Armed Services~~ ^{Appropriations}, a letter for Mr. McCone from Chairman Mahon.

3.  Met with Mr. Ed Braswell, Senate Armed Services Committee staff, and reviewed with him technical changes required in Committee Print No. 2 of H. R. 8427. I also discussed in some detail the 20-year provision of the present section relating to involuntary retirement. Mr. Braswell feels that this provision is a necessary tightening feature in the proposed draft. He did assure me, however, that this provision and the other provisions, such as re-employment compensation which have been deleted from the Committee Print, will be brought up before the Committee for their consideration.

50X1 5. [] Have made a number of efforts to meet with the staff of the House Select Committee on Government Research to respond to their questions concerning the Agency's relationship to the Joint Publications Research Service. In my conversation with Mrs. Murray today, she suggested I see her on Tuesday. Information on this has been provided by OCR and cleared through Mr. Borel and the DD/I.

50X1 6. [] In response to an inquiry from Mr. Zeiller, in the office of Senator Thomas J. Dodd, I advised that their constituent [] who applied for a position with the Agency, is under active consideration; however I pointed out this did not mean he would necessarily be offered a position. I did tell Mr. Zeiller we would keep him informed.

50X1 7. [] After several unsuccessful efforts to meet STAT with him, I saw Representative Gerald R. Ford and gave him information [] Mr. Ford had raised a question on this at the Director's last briefing of the Defense Appropriations Subcommittee. This was by way of follow up to that question. Mr. Ford was most pleasant, commenting that he had been quite tied up as a result of his work with the Warren Commission and very much appreciated our following up on this for him.

50X1 8. [] In response to a letter from Representative Samuel L. Devine, transmitting a constituent inquiry [] I advised Devine's office that inquiries on this were being handled by the Department of State and left with them a copy of a State Department data sheet which I had updated. Devine's staff assistant said this would be useful to them in preparing a response []

50X1 9. [] Called [] in the office of
50X1 Personnel, to determine the status of []
50X1 said the Medical/Personnel/Security Panel had met on this case today
50X1 and decided that the Agency should not continue [] employment.
50X1 I reminded [] again, and later [] of the interest in this
case expressed by Representative Watkins Abbitt who has been most
understanding with us but who is under extreme pressure from some of
his constituents in this matter. I suggested that before action was taken
the case might be brought to the attention of Mr. Echols for his review.
50X1 [] agreed to do this.
50X1 I advised Mr. Fletcher in Representative Abbitt's office that
50X1 [] case had been considered today and was being reviewed by
higher authority. I told him I could not predict when or precisely how
50X1 a final decision would be made. Mr. Fletcher said [] had contacted
him today indicating she had not heard from the Agency for some time. He
informed her he knew her case was still under consideration. He asked
that I continue to keep him informed.
